Regnology Risk Hub

RMF - Foundations of Regnology Risk Hub

Durée : 2 jours | Langue(s) : EN

Prérequis : Aucun | Prix H.T : 1500€

Prochaines dates :

Pas de prochaines dates

Détail de la formation :

Désignation : RMF - Foundations of Regnology Risk Hub

Contenu et objectifs :
This 2-day seminar provides a practice-oriented introduction to the Regnology Risk Hub and its core risk management and analytics capabilities. Participants will become familiar with the platform's graphical user interface, contract-centric data model, configuration options, and processing workflow. The course focuses primarily on Asset Liability Management (ALM) and liquidity analysis, while also introducing market risk, credit risk, stress testing, and regulatory analytics functionalities available within the solution.

Through a combination of demonstrations and hands-on exercises, participants will learn how to manage input data, build and maintain basic risk models, execute calculations, perform analyses, and generate reports.

Audience
This training is designed for professionals new to the Regnology Risk Hub, including risk managers, business analysts, and IT staff involved in the implementation and operation of risk management systems.

Technology Requirements (only applies to webinars)
Webinars will be held using a video conferencing tool. If required, the trainer conducts a short test conference call before the actual webinar date, to ensure that technology requirements are met at participants' end.

Trainers and Language
All our trainers are employees of Regnology. Their extensive practical experience and well-structured training approach will provide you with the knowledge required for your daily work with the Regnology Risk Hub.

The training language is English.
